VOL. XXVIII, No. 35

ITHACA, N. Y., JUNE 3, 1926

PRICE 12 CENTS

PUTTING off freshman cap burning from the night before Spring Day until the following Monday sounded fine as an idea. What happened was one of the most generally unpleasant downtown rushes of recent years. As usual, only a few members of the class were actually responsible. A few boys with an adolescent hang-over from their rah-rah prep school days started it, and mob spirit did the rest. The manager of the Strand, foreseeing a rush, had secured police protection, and the Crescent closed early. Failing to get in, the boys resorted to ringing in false fire alarms, pelting the police with eggs, and other disorderly acts, with the result that four of their number were arrested, and later fined \$50 each. The police around here generally treat the students squarely enough, and the opinion is that for the most part they had due provocation for cracking a few heads with their sticks. Turning in false alarms which leave other places temporarily unprotected is not nearly so funny as it seemed to the freshmen at first.

WITH EDITORIALS against the naughty publications on sale Spring Day, bad manners during examinations, and those who think the athletic managers ought to have arranged to have the lake calm for the races Saturday, the *Sun* stopped publication for the year on May 25, except for a special issue in Senior Week. That event made many of those who had been thinking finals still safely far off, sit up and take notice. For everyone knows that the *Sun* stops publication during term time only when its editors have to spend their time cramming for exams, and can not be bothered with getting out a daily sheet.

BUT an announcement in the last issue of the paper made two young men happy. They are Colin A. Miller '29 of Oak Park, Ill. and Henry L. Case '29 of Lansdowne, Pa., and the announcement was that they have been elected associate editors to the 1926-27 Board of Editors and Managers of the *Sun*.

A RACE against death, culminating in the flight of two automobiles from Syracuse to Ithaca, 56 miles in 57 minutes, thrilled the community on Saturday morning, when snake-bite serum was rushed from New York to save the life of Leonard W. Spear, proprietor of the University Smoke Shop. Spear was bitten the previous afternoon by a diamond-backed rattlesnake from Texas, one of a collection in the Zoological Laboratory in McGraw Hall, which it is said he disturbed by thrusting a ruler into its cage. He failed to notice the tiny punctures of

the poison fangs until his condition began to grow serious, and a hurry call had to be sent Dr. Raymond Lee Ditmars, curator of reptiles in the Bronx Zoo, for the life-saving serum. Two motor parties met an early morning New York Central train, which reached Syracuse eight minutes ahead of time, and tore through to Ithaca at a 60-mile clip with the remedy. Spear's condition on Sunday was favorable, and his recovery was expected.

THE LATEST in motor travel luxury has arrived in town. It is called the Greyhound, a large parlor bus seating thirty passengers, owned by Dean of Ithaca. Those who have ridden in it say it is as comfortable as a parlor car if not more so, and many long trips have been planned for it, including one to the Adirondacks.

FOR SOME TIME there has been a chance that a loose brick from the cornice of the Public Library Building would be an unpleasant aerial visitor on the head of some one passing the corner of North Tioga and East Seneca Streets; so scaffolds have been erected and repairs are underway to remove the menace. The structure is one of the city's oldest buildings, and was formerly used by the University. Now, besides the library, it houses the First National Bank, and the Happy Hour, bring-your-own-chewing-gum, Theater.

THE STUDENT COUNCIL has elected Victor L. Butterfield of East Lansing, Mich., acting president for next fall. Forbes D. Shaw '27 of Brooklyn will serve as acting treasurer. The regular elections are held in October. Butterfield, Shaw, Emerson Carey '27 of Hutchinson, Kansas, Jervis Langdon, Jr., '27 of Elmira, James E. Pollak '27 of Cincinnati, Richard C. Murdock '27 of Ossining, Rollin H. Spellman, Jr., '28 of Canton, Ohio, and J. F. Anderson '29 of Glendale, Ohio will serve as the acting council. Langdon will be chairman of the Central Honor Committee.

THE CHI Chapter of Psi Upsilon has presented six volumes by Andrew D. White, who was a member of the fraternity, to the library of Willard Straight Hall. The gift includes his Autobiography in two volumes, "History of the Warfare of Science and Theology," also in two volumes, "Seven Great Statesmen," and "Above Cayuga's Waters," a collection of articles which appeared in *The Cornell Era* and contains an essay by President White.

PAR for the Ithaca Country Club golf course, formerly 35, has been raised to 38. Which means not that there are so few good players that the others have to have their inferiorities protected by a higher par, but rather that the course has been

lengthened. Extensive changes have been made on the links, with nine holes of the new course open for play, and the other nine promised in a week or two. The club house has been moved over to Trip-hammer Road.

Miss Dorothy Schurman, daughter of former President and Mrs. Jacob Gould Schurman, was married to Lieutenant James M. McHugh in a civil ceremony performed at the Rathaus in Berlin, Germany, on May 19. The religious ceremony was performed later by the minister of the American Church, in the ballroom of the embassy.

THE SAGE CHAPEL Preacher for May 23 was the Rev. Dr. Clarence A. Barbour, president of Rochester Theological Seminary.

THE STRONG right arms of the girls of Alpha Omicron Pi won for that sorority the intramural basketball tournament. In the final game of the series they won from Craig House by 35 to 16.

THE OLDEST business on North Aurora Street, the Washington Market, has been closed, to make way for a modern music store run by B. Frank Lent. The building in which it was located was built seventy years ago, and was the first brick structure on that street. Mr. Lent will vacate his present store, but no plans for its future use have been announced.

A PAINTING was presented to the Cornell chapter of Delta Delta Delta by Mrs. Frederick E. Bates of Ithaca, in memory of her daughter, Juanita Bates '17, who was killed three years ago in an aeroplane crash abroad. The painting was done by Emily Scoles, who was a personal friend of Miss Bates, and is a study of a Persian girl. The picture hangs over the fireplace in the chapter room.

THE Cornell Dramatic Club has elected the following members of the production staff: Robert T. Henkle '27 of New London, Conn., business manager; stage manager, Ronald M. Taylor '27 of Maplewood, N. J.; publicity manager, Herbert T. Singer '27 of Amsterdam; mistress of properties, Ruth L. Hausner '27 of Corning; and chief electrician, W. F. Dunn '27 of Oswego.

SOME eighty students in civil engineering and twenty in forestry will spend the weeks from June 7 to July 10 down the lake at Canoga, near Seneca Falls, at the annual Summer Survey Camp of the College of Civil Engineering. They will get first hand field experience in topographical and geodetic surveying over a twenty-five-mile area.

Senior Week Play

Dramatic Club to Repeat Its Production of Interesting Early American Comedy

The Dramatic Club will continue the annual custom of giving its outstanding play of the year at special Senior Week performances. On Friday and Saturday evenings, June 11 and 12, it will present in the University Theatre Royall Tyler's five-act comedy "The Contrast." This play, the first native American comedy, was the play which opened the new University Theatre in Willard Straight Hall last November. Because of its great historical significance, the presentation is, in a sense, the Club's contribution to the national sesquicentennial being celebrated this year. The cast consists almost entirely of seniors, most of whom will be making their last appearance on the stage for the Dramatic Club.

Though written and originally produced in 1787, "The Contrast" is still a most delightful and amusing comedy. Its author created a character that has since become famous, Jonathan, the stage Yankee. The basic theme of the play is the contrast between native American worth and the affectation of foreign manners. It has been described as "truly an American comedy, a crystallization, clothed and endowed with life, of the contrasts of the tastes and fashions, the manners and morals, of the period."

The Dramatic Club in the seventeen years of its existence has shown a steady growth that has surprised even its most optimistic supporters. The Club each year presents a program, the most extensive of any in the country, that it seems well nigh impossible for a college group to handle. A total of forty-eight performances have been given this academic year, with the same high quality of production that has characterized the Club's activities in the past. The program has included five major productions, as well as forty-seven one-act plays.

Great care is shown in the choice of plays, in order to ensure programs that will be of high literary value, as well as possessing a good artistic quality. The major productions this year have been Royall Tyler's "The Contrast," Oscar Wilde's "The Importance of Being Earnest," Moliere's "Les Femmes Savantes," Giuseppe Giacosa's "The Stronger," and "The Sleeping Beauty," the freshman women's play. The one-act plays have included works by George Bernard Shaw, Edna St. Vincent Millay, Stanley Houghton, Henry Arthur Jones, Cervantes, Maurice Baring, Colin Campbell Clements, Percival Wilde, Stuart Walker, Ferenc Molnar, John Drinkwater, Arthur Wing Pinero, J. M. Synge, Harold Chapin, William B. Yeats, Alfred A. Milne, Lady Gregory, and Lord Dunsany. The Club has also encouraged the writing of original one-act plays by undergraduates.

SPORT STUFF

For twenty-three years boat races were rowed as arranged on Cayuga without abandonment or curtailment. Of the last four regattas three have been ruined by high winds and rough water. What is the answer?

The best suggestion comes from no less a source than "Morrill Number Three." Davy suggests:

1. Schedule the regatta for Friday afternoon and row it then, with due consideration for the comfort and convenience of spectators.

2. If weather conditions make the regatta impossible on Friday, hold it over until Saturday. If on that day weather conditions are good, run off the races in the usual manner on the East shore with the observation train. If, however, conditions are still bad, subordinate the the crowd and get the races rowed under the West bank or anywhere else proper water can be found.

The suggested plan would involve only a few minor adjustments in the general program—all feasible. The only real sticker is Faculty permission—here and for the visiting oarsmen—but one might entertain hope of getting that, at Ithaca anyway, provided the students will do the decent thing and stick in their classes until one o'clock on Friday.

The suggestion is a good one.

There will be no observation train for the regatta with California on June 11.

Tickets for the Cornell cars on the observation train at Poughkeepsie will be distributed by the Cornell University Athletic Association early in June from Ithaca. Tickets are \$5.50 each. Twenty-two cents should be added to remittances to cover registration and postage.

R. B.

DARTMOUTH has received from an anonymous donor a million dollars for a new library.

THE UNIVERSITY of Pennsylvania reports that the result of the first year of the fifteen-year campaign for \$45,650,000 is a subscription of \$7,500,000 received from 10,868 persons, of whom 10,467 are graduates or former students.

THE UNIVERSITY of Rochester will open its new School of Medicine and Dentistry on October 25-26.

ON MAY 16 was dedicated the new building of the People's Church at East Lansing, Michigan, seating fourteen hundred persons. Four denominations, the Baptist, Congregational, Methodist, and Presbyterian, are cooperating in this enterprise, and a score of other denominations are represented in the membership. It is a church for the Michigan State College and the community.

Reports of Deans

Heads of Faculty, Graduate School, Arts, Law, and Medical College Report

Now that the complete report of the President has appeared, in accordance with our annual custom we summarize the reports of the remaining deans and other chief officials. The summary of the President's own report appeared in our issue for December 10; the Comptroller's report was treated in the issue for January 14; the report of the committee for the College of Agriculture in the issue for February 25; and the report of Dean Moore of the Veterinary College in the issue for April 8.

The report of Dean Hammond of the University Faculty is concerned chiefly with routine matters. He notes a decline in the number of students competing for the University Undergraduate Scholarships, which dropped from 137 in 1914 to 78 in 1924. He also urges a new gymnasium.

Dean Emerson of the Graduate School especially considers the increase in enrollment in the number of graduate students in the summer. The enrollment for the academic year was 1924-5 was 583, an increase of ten per cent over the previous year. The increase in the summer was twenty per cent over that of the previous summer. Because of this fact the dean urges that more adequate provision be made for graduate instruction in the summer. In the course of the year sixty persons received the Ph. D. degree and 141 persons masters' degrees.

Dean Ogden of the College of Arts and Sciences describes the method of limiting the numbers which has now been put into effect. He suggests transferring the Department of Astronomy from Civil Engineering to Arts and Sciences. He summarizes the needs and condition of the several departments, many of which are in need of additional funds or equipment. The enrollment in Arts was 1977, of whom 645 were women and 1332 were men.

Dean Bogert submits his last report as dean of the College of Law. The registration in law was 206, of whom 167 were regular law students. Of the 167 43 per cent live outside of New York State. In the summer of 1924 there were 83 students, almost twice as many as in the previous summer. The Law Library now numbers 58,814 volumes. The question of graduate instruction has been raised. The pressure of undergraduate instruction makes it impossible to do more than give a limited amount of time and energy to the work of graduate students; but all the members of the Law staff except one from now on will give some instruction to graduates who are studying for the master's degree. The curriculum of the College has been overhauled to see if any subjects were too much or too little stressed. An agreement with the College of Arts

and Sciences has been reached with reference to certain apparently overlapping courses. Beginning with September, 1925, the Law School became a graduate school. Another professor is needed. The weekly teaching load, seven hours, is now more than that of the best law schools of the country. The dean urges a more thorough organization of the placement bureau of the School.

Dean Niles reports that the work of the Medical College has been highly satisfactory and productive. Instruction under the new curriculum, which is now in complete operation, appears to have been more effective and it is the opinion of the Faculty that it will continue to increase in efficiency. The staff of instruction has been energetic and enthusiastic and the success of the College has been due to the devotion of its teaching staff. Research activities have been more numerous and have given better results than perhaps in any other year in the history of this College. While appreciating the fact that the primary purpose of the Medical College is the instruction of students, research has always been held to be vital for the spirit necessary to develop physicians and investigators of the highest type. This was appreciated by the founders of the College and from the first the College has main-

tained a notable position among teaching institutions largely because of this fundamental concept.

The dean urges more active cooperation on the part of departmental heads with the Clinic. The Clinic has been operated upon a pay basis since November 1, 1921, and continues to be a most interesting experiment in medical sociology. The results have surpassed expectations and it may now be regarded as having passed the experimental stage. Various problems have from time to time been foremost in its operation. Owing to the unexpected demand for such service it was at first difficult to provide adequate professional service. This was, however, accomplished within the first year of operation and the high standard which was then established has been effectively maintained. The next serious matter which faced us was to make it actually self-supporting by moderate increases in the fees and by effecting economies in administration. It has during the past year become definitely self-supporting. At the present time it is accumulating a small surplus which will in all probability be used up during the summer months. The College has continued its annual appropriation, equaling the amount necessary to run the Clinic prior to placing it on a pay

basis, and is permitted to use this sum for the benefit of the Clinic. It is now proposed to use this appropriation for research work in the Clinic itself and in the various laboratories allied to it. Appropriations will be made to aid specific pieces of work along practical lines. The results will be reviewed and in such cases where the problem has not been solved but gives promise the work will receive continued support. The Out-Patient Department offers an admirable field for the study of ambulatory and incipient tests which have heretofore been largely neglected and it is hoped that by giving support to such studies important results may be achieved, particularly in the field of preventive medicine.

The secretary of the Ithaca Division of the Medical College reports that the revised curriculum so far does not seem an improvement over the old. With the decreased required hours in class room and laboratory, it was hoped that the students would devote their free time to outside reading; but the free time is so little and the work so new that practically all the students still devote themselves to routine work. Because of Dr. Simpson's illness and the consequent necessary readjustments, research has been less active than in former years. It is becoming increasing-

THE GOOD SHIP "PINTA"

This staunch vessel, manned by a crew of *Widow* editors, formed part of the fleet with which Columbus sailed up the Hill on the morning of Spring Day.

Photo by Troy

ly difficult to select the right students for admission to the Medical College, partly because the professorial contacts of students in Arts and Sciences are frequently so casual that the professors are unable to give the proper information about their students. Dr. Kerr urges a separate endowment for the Ithaca Division.

For Architecture Dean Bosworth reports that his college has likewise had great difficulty in selecting the best students for admission to the courses in the College. The request for the plans of a new building raises the question of what the future of the College is to be.

This College is engaged in the preparation of students for the practice of the profession of architecture, landscape architecture, and either that of the painter or sculptor. In so far as its instruction covers the fundamental graphic arts it is a School of Fine Arts. Music is one of the fine arts. Educationally it has comparatively little in common with the graphic arts, yet there is a certain value in a close physical association of all the fine arts if it is desired that the influence of the fine arts in the future be made more potent, to extend beyond that group of students enrolled in professional courses. In somewhat the same manner the question of the relation of archeology and aesthetics to the history of art and the practice of art as a part of the present curriculum of this College can hardly be settled by this Faculty. It is rather a question for which the answer, to a certain degree, will be indicated by a decision as to what place a School of Fine Arts should take in the University. Up till now this College has to an almost exclusive extent directed its efforts towards the training of those students enrolled in it.

As yet there has been little demand for courses primarily designed for the non-professional students nor has the Faculty attempted to any great degree to stimulate such demands.

The answers to these questions are of importance in so much as to some extent they determine what part, in the future, this educational division of the University should play; what importance the appreciation and understanding of the fine arts should properly assume in general education.

This Faculty believes that this College has as its first duty the thorough training of its own students; at the same time in the future the influence which might be exerted by it could well be extended over a wider field.

Dean Kimball reports that the most important matter that came up during the year was the participation in the investigation of engineering conducted by the Society for the Promotion of Engineering Education. The work has been completed and the documents are in the hands of the committees. The number of students in engineering was somewhat less than in the preceding year; this is in accordance with the general trend, and is partly to be ac-

counted for by the rise of schools of business administration. Locally, also, the admission requirements have been rigidly enforced. Much progress is reported in research, new building plans are now being developed, and the new buildings contemplated are imperatively needed.

The chairman of the Summer Session for 1924 reports that the total enrollment was 2070, of whom 1,043 were men and 1,036 were women. There were 190 graduate students and 590 teachers. The cost per student hour ranged from \$3.16 for English courses to \$23.07 for courses in structural engineering; the average was \$5.22. Enrollment in English, education, and history seems to be on the increase.

The dean of women reports that there were during the year 1,295 women in the University, of whom 1,258 were located at Ithaca. Of these latter 630 were in Arts, 505 in Agriculture and Home Economics, 3 in Medicine, 2 in Engineering, 25 in Architecture, 9 in law, 2 in Veterinary Medicine, and 82 in the Graduate School. 46.17 per cent of the women lived in the halls and University houses. 361 women partly or wholly supported themselves.

The Registrar reports that in all 2,698 persons matriculated in the University. Of the 1,083 admitted to the freshman class, 483 came in on certificate, 570 on Regents' examinations, 9 on University examinations, and 21 on C. E. E. B. examinations. The total number of first degrees granted to date is 24,110; of advanced degrees, 2,936; total, 27,046. 7,415 persons were in attendance.

The Librarian reports that the Library was open 308 days, or 84.4 per cent of the year. The Library now contains 724,452 volumes. 11,264 volumes were catalogued during the year. The need of more shelf space is urgent. The list of staff publications fills 36 pages. 291 persons, or 65 per cent of the staff, are represented in the list.

ALUMNI AID LATIN SCHOOL

The new building program of the Chicago Latin School is of interest because of the number of Cornellians who are interested in its development. They are Frank S. Porter '00, president of the Latin School Association, Edgar J. Uihlein '00, vice-president, Clarence T. Seipp 'c8, and Lawrence M. Viles '04, members of the board of trustees.

The Chicago Latin School for boys was founded in 1888. During the thirty-eight years of its existence it has nurtured scores of embryo Cornellians. The new building program requires an expenditure of \$500,000, which will be met by the issuance of fifty-year five per cent gold debenture bonds.

BUSINESS in silent transmission chains and systems is so good that the Morse Chain Company will soon construct a five-story extension to its present plant on South Hill.

OBITUARY

Theodore G. Sullivan '72

Theodore Greene Sullivan died at his home in Montclair, N. J., on November 20, 1925.

He was a native of Maryland and entered Cornell from Sykesville in 1868 as a science student. After two years he left the University to enter business, and in time formed connections which took him and his wife on frequent and lengthy trips to Europe, Japan, and South America. For many years his headquarters were in New York, but for several years prior to his death he had been retired from active business.

Nelson W. Cady '74

Nelson Warner Cady died on January 18 at his home in Logansport, Ind., where he had been a physician for nearly a half century.

He was born at Marion, Ind., on October 31, 1850, the son of Charles W. and Abigail Kiersted Cady. After graduating from Indianapolis High School, he entered Cornell in 1870 as a student in the philosophy course, and graduated in 1874 with the degree of Ph. B. He was a member of Phi Delta Theta and the Tom Hughes Boat Club. He took a year of graduate work before going to Bellevue Hospital Medical College in New York, from which he graduated in 1877 with the degree of M.D.

He married Miss Jennie M. Miller of Waverly, N. Y., who died in 1902, leaving three children besides her husband. They lived in Logansport, Ind., where Cady was a leading physician, member of the State and County Medical Associations and author of several books and papers.

Abraham B. Samuelson '91

Brief word has been received that Abraham Bernard Samuelson died on December 15, 1925.

He was the son of Russian immigrant parents and received his early education in New York. He entered Cornell in 1887 as a student of civil engineering but remained only part of a year. He returned to the metropolis and was in business there until his death.

Charles L. Chasins '02

Dr. Charles Louis Chasins died suddenly at his home in New York on April 29, leaving a wife and two children.

He was born in Winnitza, Russia, on February 1, 1879, the son of Mr. and Mrs. Louis Chasins. After attending the City College in New York he entered the Cornell Medical School and graduated in 1902 with the degree of M. D.

At the time of his death he was a surgeon in the Department of Laryngology and Rhinology of the Cornell Medical College, and also attending surgeon in the Department of Otolaryngology.

Caroline R. Jackson, '12 Grad.

Caroline Ruth Jackson died at Redlands, Calif., on September 30, 1925.

She was born at Decaturville, Ind., the daughter of John T. and Louisa Alden Jackson, and attended a private normal school at Chillicothe, Mo. Later she went to the University of Missouri and secured the degrees of A. B. and B. Agr. In 1912 she came to Cornell as a graduate student and remained part of the year. After leaving, she went to the University of California, secured the A. M. degree, and then took up teaching.

C. Curtis Woodruff, Jr., '18

Charles Curtis Woodruff, Jr., died of heart trouble on May 4 at his home in Forest Hills, Long Island.

He was born in Long Island City, N. Y., on May 10, 1896, the son of Mr. and Mrs. C. Curtis Woodruff, and attended the Bryant School in New York. In 1914 he entered the University as a student of civil engineering and remained until the World War, when he joined the Naval Flying Corps. In 1919 he returned and graduated in 1920 with the degree of C.E.

He was a member of Alpha Tau Omega, Rod and Bob, the Savage Club, the Sunday Night Club, and the Musical Clubs. He was also a member of his freshman track team as a sprinter, and of the varsity track team in his sophomore and junior years.

Walter A. Kibbey '19

Walter Alexander Kibbey died on April 30, in Denver, Colo.

He was born in Washington, D. C. on August 30, 1893, the son of Mr. and Mrs. T. Edward Kibbey. He graduated from Washington Central High School and then entered Cornell in 1915 as a student of agriculture. At the end of the year he left the University and the last word from him was the he was with the National Lime Association in Washington.

Sihon W. Baker '23

Sihon Winfield Baker died at his home near Batavia, N. Y., on May 15 after a long illness.

He was born at Webster, N. Y., on January 10, 1901, the son of Mr. and Mrs. C. J. Baker. He graduated from Webster High School and came to Cornell in 1919 as a student of agriculture. He was a member of the stock-judging team, the Round-Up Club, and the R. O. T. C. Association. He was also active in church and Sunday school work in Forest Home.

Last year, he taught agriculture in the Holley, N. Y., High School. On March 21, 1925, he was married in Syracuse, N. Y., to Miss Margaret Mapes of Forest Home. Soon after his father bought the Bonalevo Farms near Batavia, and he and his bride went there to live. He was in charge of the farms at the time of his death.

Beside his widow and parents, he is survived by a brother, Barton Baker '22, of Rochester, N. Y.

Lecturer Appointed

Berlin Professor Will Present Topics in Inorganic Chemistry Next Term

The Non-Resident Lecturer in Chemistry for the first term of the next University year will be Dr. Fritz Paneth, Professor of Inorganic Chemistry in the University of Berlin.

DR. FRITZ PANEHT

Professor Paneth is an Austrian, and his student years were spent in his native city, Vienna. He received the degree of doctor of philosophy from the university there in 1910, and then was appointed assistant in the Vienna Radium Institute. In 1913 he went to Great Britain and studied under Soddy in Glasgow and Rutherford in Manchester. Upon his return to Vienna he received appointment as instructor (Privatdozent) in inorganic chemistry and radioactivity in the University of Vienna. He was then called to the German Technical School in Prag, and in 1919 accepted a professorship in the newly created University of Hamburg. In 1922 he received appointment to the professorship of inorganic chemistry in the University of Berlin, the position which he now holds.

Although only thirty-eight years of age, Professor Paneth has already achieved international reputation as one of the most brilliant and versatile investigators in his field. In his lectures at Cornell he will present, under the general title "Selected Topics in Inorganic Chemistry," the results of his research and study concerning "The General Significance of Radiochemistry," "Isotopes," "The Periodic System from the Point of View of Bohr's Atomic Theory," "The Hydrogen Compounds of the Chemical Elements," "Natural and Artificial Transformation of the Elements," and "The Use of the Radio-Elements as Indicators."

BOOK OF VIEWS SELLING FAST

Latest reports from the sale of the Book of Views indicate that over six thousand copies have been disposed of. Copies which still remain present an opportunity to the loyal Cornellian who wants the best of the good things the University affords. For sheer artistic beauty this book has never been equaled, and it is doubtful if the future will see its duplicate.

New light on the history of the Book of Views shows that most of the manufacturing costs were donated. The paper and plates were given outright. Part of the printing was procured through the influence of R. Verne Mitchell '07, president of the Harris Automatic Press Company of Cleveland. The cover stock was furnished free of charge, and the covers themselves were made at cost through the generosity of Frank O. Neely '09 of the firm of Eberwein and Zahardt of Rochester.

John P. Troy, the University photographer, furnished the photographs, and the cover and border were designed by a professor in the College of Architecture. An interesting feature of the cover design is that the bent-over dummies on the outer fringe are symbolic of the pikers struggling up the hill to an eight o'clock class.

The proceeds from the sale will be turned over to the University to use as the Trustees may see fit.

MEDICS HAVE MAY DAY

Threatening storm clouds did not prevent about 150 students and many of the Faculty members from traveling to the Warburg estate near White Plains to take part in the annual May Day outing of the Medical College, held on May 15.

One of the features of the afternoon was the baseball game between the fourth year and the third year students, in which the third year men were on the losing side of the 9-3 score, and which gives to the present senior class the honor of graduating without ever having been beaten in the great American game. The 50-yard dash for women was won by Bettina Warburg '26, who has won this event for a number of years past. But the third year relay team avenged the baseball defeat by coming in victorious in the 440-yard relay, which for the past two years was also won by the present senior class. The remainder of the large polo field of the Warburg estate was dotted with games of soft ball.

In the evening the main lecture hall at the college was filled with an appreciative audience of students and Faculty members with their wives and friends, where the characteristic traits of many of the Faculty members were taken off by the students of the various classes. This entertainment was followed by dancing, which lasted until two.

Wade Duley '26 was chairman of the Get-Together Committee.

Published for the Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication [numbered consecutively] ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

HOT COLLEGE HUMOR

PERIODICALLY the country over, college comic publications have to be suppressed, the editorial staffs have to be spanked, and the newspapers of the country of a certain sort find themselves in possession of some hot copy which they, of course, can use without fear of violence.

One finds, on catching up with a specimen of the questionable literature, that it hasn't differed materially from the other numbers of the same volume, but has simply cut the corners more closely and has been called a strike.

College humor is not alone in its martyrdom. Once in a while, as recently, some professional magazine, even the model for most of the clever things of the college comics, receives recognition from a duly, or unduly, appointed censor, and the cherished front-page news story goes out over the wires.

We presume it cannot be helped. No models for their humor are supplied by the colleges. It is much easier to follow a recognized professional pattern than to go one's own way as the earlier humorous collegians did and hew the rough exhibits out of native material. There have been periods in Cornell's history when enough humorous situations developed among the relatively small student body to fill a humorous publication without even a mention of anyone or anything more remote than Trumansburg. Incidentally

this home-grown product was clipped by columnists from coast to coast.

Too often the extreme penalty is imposed on a hapless editor whose worst misdemeanor is, not the publishing of an indecent story, as charged, but the blundering, uninspired rehashing of what was originally an irresistible story, more or less confidential in nature, but much more restrained and much funnier than the improved and printed version.

We look forward with constantly blasted hope to the day when an editor, wise beyond his years, will establish and enforce a few simple rules for his college comic. We offer these. 1. No He-She jokes or pictures. 2. No big league rehashes. 3. The most original clippings rather than the snappiest. 4. Triple credit for original jokes dealing with the locality of publication. 5. Expulsion from the board for anyone caught rewriting and spoiling a good joke.

COMING EVENTS

Tuesday, June 8

Term examinations end, 6 p. m.

Thursday, June 10

Concert, Musical Clubs, Bailey Hall, 8.15 p. m.

Friday, June 11

Dinner, Class of '11, Cornell Club of New York, 8 p. m.

Monday, June 14

Fifty-eighth Commencement, Bailey Hall, 11 a. m.

Commencement Meeting, Board of Trustees, President's Office, 10 a. m.

Cornell Club of Dutchess County, last dinner and meeting at the T-Market, Poughkeepsie.

16's TREASURE HUNT

The class of 1916 returns for the Decennial Reunion as big game hunters. In these days when treasure hunts are so popular, this is an inspired idea, particularly so because of '16's unique plan for bringing its members back to Ithaca.

No matter in what part of the country a man has his home, he subscribes \$50, and his transportation, quarters, entertainment, and costume are furnished him. No limitation of distance and but a small obstacle in money is left to hinder men from returning.

What more could be done to make their Reunion indeed a Treasure Hunt and a get-together, with a spirit behind it that should be an inspiration, not only to '16'ers themselves, but to other classes in future years?

MICHIGAN STATE College next year adds to its curriculum a course in medical biology leading to the degree of B. S. and graduate courses in English leading to the degree of A. M.

REUNION EVENTS

Friday, June 11

Morning: Breakfast, Willard Straight Hall, Cascadilla, and Home Economics Cafeterias, and Sage College.

Registration, Drill Hall, all day.

Assignment to rooms.

Distribution of class costumes.

Class and interclass games.

10:00 a. m. Federation of Cornell Women's Clubs. Annual Meeting. Room 3, Drill Hall.

11 a. m. Class day of Senior Class. Bailey Hall. All alumni invited, no tickets necessary.

12:15 to 2 p. m. All classes lunch in Drill Hall. Fifty cents.

2:00 p. m. The Cornell-Pennsylvania baseball game. Hoy Field.

5:00 p. m. Organ recital by Professor Harold D. Smith. Sage Chapel.

Crew races, Lake Cayuga. Cornell vs. California.

Dinner: Service at Willard Straight Hall, Cascadilla, and Home Economics Cafeterias, and Sage College.

7:30 p. m. Senior and Alumni singing Goldwin Smith steps.

8:30 p. m. Dramatic Club Play "The Contrast."

10 p. m. Senior Ball. Willard Straight.

Saturday, June 12

Morning: Breakfast. Willard Straight Hall and Cascadilla Cafeterias and Sage College.

Registration. Drill Hall, all day.

Assignment to rooms.

Distribution of class costumes.

Class and interclass games.

9 a. m. Cornell Association of Class Secretaries, annual meeting.

9:30 a. m. Cornelian Council, annual meeting. Morrill Hall, Room 32.

10:30 a. m. Cornell Alumni Corporation, annual meeting. President Farrand's confidential talk to alumni. Baker Laboratory of Chemistry.

12 to 2 p. m. University luncheon for alumni and families, faculty, out-of-town guests, and seniors, all as guests of the University, Drill Hall.

2 p. m. Costume parade of classes, to Cornell-Colgate baseball game.

2:30 p. m. The Cornell-Colgate baseball game. Hoy Field.

4 p. m. Federation of Cornell Women's Clubs Tea in honor of Dean White. Dr. White will speak at 5 p. m. Risley Hall.

6 p. m. Class dinners.

8:30 p. m. Dramatic Club Play "The Contrast."

9:30 p. m. Rally of all classes, under auspices of '11; speeches, singing, and stunts. Bailey Hall.

Sunday, June 13

Morning: Breakfasts, auto trips, and such. 4 p. m. Baccalaureate Sermon. Bailey Hall.

The things we depend upon most we appreciate least

5¢ worth of ELECTRICITY

5¢ spent for electricity will run a washing machine for two hours.

5¢ spent for electricity will keep the refrigerator cold for eight hours.

5¢ spent for electricity will make a hot kitchen comfortable with an electric fan for ten hours.

5¢ spent for electricity will run a vacuum cleaner for three hours.

5¢ spent for electricity will run a sewing machine for seven hours.

5¢ spent for electricity will light your reading lamp for two long evenings.

The electric switch is only one of the many contributions which the General Electric Company has made to the electrical industry. G-E has built giant generators for Central Stations; it has made the motors which do hard and tiresome tasks; and in G-E research laboratories it has developed better MAZDA lamps to light our factories, highways and homes.

The cost figures in this advertisement are based upon electricity at 10 cts. per kilowatt hour.

MOST of the good things of life cost much more than they did in 1914; electricity, the shining exception, actually costs no more. This is a record of which the electrical industry is justly proud.

It means that you can use electricity very freely and still be very economical. It means that no American husband ought to allow his wife to waste time and energy in doing one single household task that electricity can do for a few cents an hour.

Columbia Wins Again

A batting rally in the seventh inning, which brought three runs across the plate, helped Columbia to defeat Cornell by a 5 to 4 score on Hoy Field Saturday. It was a Quadrangle Cup series game, and the victory was Columbia's second over Cornell this spring. Smith outpitched Harrington, especially in the later innings. After Columbia had secured her one run lead, Smith held Cornell safely. Except for the seventh Harrington was effective, though he was weakening a bit before that fatal frame. Smith allowed seven hits, Harrington nine. Vickers pitched the last inning and held the Lions hitless.

Cornell scored in the second when Baker was hit by a pitched ball and scored on loose playing by the Columbia infield. Columbia tied the count in the first half of the third inning when Whitaker singled, was advanced on Cornell errors and scored on Kunitz's long sacrifice fly. Cornell came back with two runs in this inning on hits by Shaw and Wendt and Whitaker's error, and in the fourth added another count when Balderston beat out a bunt and went to third on Whitaker's wild throw over first. Trefts' single brought Balderston home. Whitaker's home run to center field gave Columbia a run in the fifth and the Lions clinched the game in the seventh when hits by Lorch, Whitaker, Zegri, and Trentacosti and a Cornell error counted for three runs. The score:

Columbia		AB	R	H	PO	A	E
Furey, rf	4	1	0	0	0	0

Losing pitcher, Harrington. Umpires—Herrold and Diviney. Time 2:15.

First Varsity Races

The Cornell varsity and freshman crews, in their debut at Cambridge Saturday, each finished in third place. The Varsity, after a gallant struggle with Harvard, dropped behind in the last two hundred yards and finished about a half boat-length behind the Crimson, which in turn trailed what looks like another great Navy crew by about three and a half boat lengths. M. I. T., which last year defeated Cornell in this race, was a bad fourth. Navy's time for the mile and three quarters course, 10 minutes, 24 seconds, was good, considering the rough water.

The Cornell freshman eight made a poorer showing than the varsity. Harvard won this race handsomely over the plebes, with Cornell several lengths behind the midshipmen.

For three-quarters of the distance the Cornell varsity eight, the dark horse in the regatta, put up a mighty battle. The Navy set the pace and was in the lead all the way but not by a very wide margin until the last quarter of a mile. Up to this point Cornell was in second place. The Red and White eight, a boatload of giants, rowing a high stroke, faltered a bit as the shells came into the last quarter mile. Harvard, with a slightly lower stroke and fuller swing, challenged Cornell and yard by yard caught up. The Crimson managed to row Cornell down, but not the Navy. The midshipmen hit up the stroke to 42 and raced across the line a winner by 11 seconds.

The Cornell crews on the Charles were boated as follows:

Varsity—Bow, N. G. Stagg; 2, S. T. Buckman; 3, F. C. A. Drew; 4, P. D. Harwood; 5, H. C. Boschen; 6, E. L. Anderson; 7, S. C. Allen; stroke, R. V. Lange; coxswain, Richard Aronson.

Freshman—Bow, C. H. Todd; 2, C. L. Carter; 3, J. F. Macomber; 4, W. W. Stillman; 5, R. M. Smith; 6, H. K. Havemyer; 7, L. B. Knight; stroke, S. W. Abbott; coxswain, M. B. Farwell.

Russell Stars at Intercollegiates

The blazing speed of Captain Henry A. Russell '26 won for Cornell two individual championships in the fiftieth anniversary meet of the I. C. A. A. A. at Cambridge Saturday. Russell defeated the greatest college runners of the East and Far West and he won so impressively that he was generally acclaimed as among the greatest sprinters of the day.

In writing this brilliant page in the records of Cornell track history Russell equalled the intercollegiate record in the 100-yard dash, 9 7/10 seconds, and set a new intercollegiate record of 21 seconds in the 220 yard dash. He won the 100 easily, by several yards over Norton of Yale, with Miller of Harvard third, Hussey, the national A. A. U. champion fourth, and Charles of Colgate fifth. Slow to start, Russell developed mighty speed half way down the lane and crashed through with magnificent stride to victory.

His triumph in the 220 was even more impressive. Again, as is his custom, he got off leisurely, and several were ahead of him at the half-way mark. Then with giant strides he shot by them all, winning by six yards or better from Clark of Yale, with Norton of Yale third, Charles of Colgate fourth, and Barber of California fifth.

Russell is the first Cornellian to win both sprinting titles in the same meet, in fact the first Cornellian to win the championship in the 100-yard dash. Frank M. Sears '04, won the national A. A. U. championship in the 100 but not the intercollegiate. Sears and Frederick K. Lovejoy '24 have won the 220 championship for Cornell, but Russell is the first man to capture both and the first to accomplish the feat in record times.

His varsity career began in his sophomore year, when he placed fourth in the 220 at the Intercollegiates. He came here without prep school reputation, and did not figure prominently as a freshman. In his junior year however he came fast and won the 220-yard championship at the Intercollegiates. It remained for this, his last year, to fully establish his pre-eminence. Since February Russell has won the indoor championship in the 60-yard dash, established a world's record for the 75-yard dash indoors; won the 100 and 220 in both the Pennsylvania and M. I. T. dual meets, and again in the Intercollegiates.

Outside of Russell's brilliant efforts Cornell failed to accomplish much at Cambridge. Only ten men were taken, as

Coach Moakley realized that the competition would be too fast for most of this year's team. The only other man to score was Wenzel, who got fourth place in the hammer throw with a throw of 147 ft. 6¼ inches.

Southern California with a team of stars captured the team title again. The scores:

Team	Pts.
So. California.....	35½
Stanford.....	25½
Yale.....	25¼
Harvard.....	20
Syracuse.....	17
California.....	16
Penn State.....	15
Cornell.....	12

Holy Cross.....	1
Dartmouth.....	1

Freshmen Win on Track

The Cornell freshman track team defeated the Colgate yearlings on Schoellkopf Field Saturday by a score of 68 to 58. Each team won seven first places. Captain

Benson of Cornell furnished the feature performance when he won the mile run in 4 min. 25 seconds, better time than any of the varsity men have made this year.

California Regatta Friday June 11

The crew races with California on Lake Cayuga, previously announced for Saturday, June 12, will be held on Friday, June 11 instead. This change, it is thought, will be a decided improvement in the reunion program, as the boat races on Saturday afternoon would have overcrowded the day.

The exact time of the races has not been decided, but they will presumably be held at 5 o'clock or later, after the Pennsylvania baseball game.

A GENTLEMAN out in Slaterville has heard about taking coals to Newcastle; so when his truck, loaded with straw, caught fire from too long pressure on the brakes as he was coming down East State Street, he calmly drove over to the fire station in the City Hall and asked for the necessary aid. A few shots from a pony extinguisher, and the brake lining and grease let go their flames and the gentleman went on his way.

PI ALPHA XI, honorary floriculture society, has elected Earle G. Mann '27 of Richmond, Ind., president for next year, Herman R. Schenkel '27 of East Hampton, secretary, and Frank R. Preston '27 of Oxford, treasurer.

CLUB ACTIVITIES

Chicago Women

At the annual meeting of the Cornell Women's Club of Chicago on May 22 the following officers were elected: President, Mrs. Harold L. Blood (Minnie Edgar) '11, 216 South Lombard Avenue, Oak Park, Ill.; vice-president, Mrs. H. E. Ringholm (Mabel Baldwin) '19, 1539 Lake Avenue Wilmette, Ill. The present secretary-treasurer, Ethel L. Jarrett, 59 Scott Street, Chicago, was reelected.

Detroit Women

On June 4 the Cornell Women's Club of Detroit will hold its last meeting of the year with a dinner at the Detroit Edison Boat Club. The wives of the Cornell men of the city will be guests of the club.

Dutchess County

The Cornell University Club of Dutchess County voted at its meeting at the T-Market on May 10 to follow the custom of previous years of making a contribution to the local regatta fund. The club will hold its last dinner and business meeting at the T-Market on June 14.

Philadelphia

The Cornell Club of Philadelphia held its grand winter wind-up on May 26. About thirty exponents of the royal and ancient game of Sand Shoveling appeared.

LANG'S PALACE GARAGE

117-133 East Green Street

ITHACA, New York

An Automotive Establishment DeLuxe

OUR storage capacity on one floor without posts is 200 cars. We have a service station for the repair of automobiles which is equipped with the latest and finest machinery and manned by competent mechanics. ¶We sell accessories of all kinds in our store. We have a beautiful salesroom with the latest models of Cadillac, Studebaker, Willys-Knight, and Overland automobiles on display. ¶In a word, we want your business when in Ithaca.

ERNEST D. BUTTON '99
President

WILLIAM H. MORRISON '90
Sec'y and Tres.

on the first tee of the Cedarbrook Country Club in the early afternoon. A few more of the members got a little mixed up on directions of the course and started early in the afternoon at the nineteenth hole. So far, all of these scores have not been received and whether they have completed the course yet is still a question.

H. Albert (Al) Rogers '03, by a clever exhibition, won a leg on the Bowen Trophy by shooting an 81. This score with his handicap was sufficient to win him the low net honors of the day.

Ira Craig '08 had low gross with 79, and for this good shooting he was rewarded with a very handsome golf bag.

In Class "B" Robert W. (Bob) Hill '25, one of the youngest members of the Cornell Club, won low net with a net score of 77, and received a steel-shafted brassie.

In Class "C" Laurence (Larry) Bowen '11 and Richard E. (Dick) Bishop '09 tied for low net, and they were both rewarded with golf clubs. All of the above prizes were donated by various members of the club.

The booby prize given for the high gross score, which was a beautifully hand-etched brown derby, was won, hands down, by Harman M. (Pat) Molony '17, with a total gross of 136 bloody wallops.

Immediately after the golf match, a real old-fashioned song fest took place around a big table in the grill room. After eight o'clock the members adjourned to the main dining room for the dinner and evening entertainment. Through the good offices of Andrew R. (Andy) McCown '13, the club was fortunate in having the Orpheus Club Quartet, of which Andy is the leading tenor, and two stunt soloists, also from the Orpheus Club of Philadelphia. The dinner and evening were absolutely speechless and informal.

The club is hopeful that the above printed scores may induce another group of Cornellians somewhere on the circuit to challenge a team from the Cornell Club

of Philadelphia. If such a challenge ever develops, it is suggested that the prize be given to the team showing the highest total number of points.

Southern California Women

As the final meeting of the year, the Cornell Women's Club of Southern California held a picnic at Bixby Park, in Long Beach, California, on Saturday afternoon, May 15. Seventeen members, from almost as many cities and towns, representing classes ranging between '83 and '23, came together. The usual exchange of reminiscences and present day data followed the picnic dinner. The day yielded not only a happy reunion but a promise of enthusiastic activity in the fall.

LITERARY REVIEW

Frank Talks with Young Women

Ruth Talks It Over. By Julius Vincent. New York. The Macmillan Company. 1925. 20 cm., pp. 130. Price, \$1.50.

In this volume the author, apparently a teacher, writing under the pen name of Julius Vincent, discusses in a highly sympathetic, interesting, and effective manner, the views of the girl and young woman of the new era. The age which introduced woman suffrage has brought with it other ambitions. Many young women think they can do and are determined to do everything a man does: smoke, drink alcoholic liquors, tolerate endearments as freely as a young man offers them, and so on. On biological, physiological, and social grounds the author shows how fatally foolish all this is. Of course a girl has a right to do these things; but she will pay the price just as surely to-day as she has ever done. It is the old story; every girl who entertains these modern ideas thinks she is going to beat the game, no matter what may have

been the experience of those who have gone before her.

It is a very sensible book which every young woman should read. It will probably not be read by those who need it most unless it is brought very compellingly to their attention.

Books and Magazine Articles

The Rational Life Publishing Company of Ithaca has recently brought out a second edition of "Sex and Life: What the Experienced Should Teach and the Inexperienced Should Learn" by Dr. W. F. Robie, Dartmouth '89. The new edition contains forewords by F. H. Hankins of Smith, William F. Ogburn of Columbia, Wilford Lay, and Professor Walter F. Willcox.

Through the firm of Franklin and Charles Professor William S. Franklin, D.Sc. '01, of the Massachusetts Institute of Technology, and Dr. F. E. Terman have just published a book on "Transmission Line Theory." It is a volume of 350 pages, 22 cm., and sells for \$4.

The October number of the *Journal* of the American Chemical Society contained an article on "Monomolecular Soap Films in Emulsion" by Professor Peter A. van der Meulen '13, Ph.D. '16, of Rutgers, and Dr. William Rieman, 3d, Rutgers '23.

The Nebraska Alumnus for May includes a sketch of Edgar L. Hinman '92, professor of logic and metaphysics at the University of Nebraska since 1906. A portrait accompanies the article. Hinman has been teaching at Nebraska since 1896. He has so developed the department that more than four hundred students now enroll annually in his classes.

The Cornell Graphic for May 10 includes pictures of Dr. Georgia L. White '96, Paul Eckley '17, and Romeyn Berry '04.

In *School and Society* for May 15 President George F. Zook '14 of the University of Akron writes on "The Junior College Movement." The article was read before the Harvard Teachers' Association on March 20.

The Harvard Graduates' Magazine for March contained a review of Professor Horatio S. White's "Willard Fiske: Life and Correspondence."

Cement, Mill and Quarry for March 15 contained a note on "Removal of Sulphur by Drainage" by Professor James A. Bizzell, Ph.D. '03, of the Department of Soil Technology.

Professor Glenn W. Herrick's "Manual of Injurious Insects" was favorably reviewed in *The New York Times* for April 25.

In *Barron's* for May 10 Professor James E. Boyle, who is now in Paris, writes on "The French Franc."

In *Cement, Mill and Quarry* for March 30 Professor Heinrich Ries had an article on "Standard Tests of Molding Sands."

Cascadilla Day Preparatory School

having relieved itself of boarding school responsibilities, finds itself more than ever able to satisfy intellectual and scholastic needs.

We give two years of sound preparation in one year.

Our tutoring department meets all special difficulties of the individual student.

ALUMNI NOTES

'95 CE—Miss Anne Barbey Lewis, daughter of Mr. and Mrs. Roger Lewis, was married on June 2 at St. Thomas's Church, New York, to Edward Ritzema Perry.

'98 MS, '00 PhD; 'c6—Dr. and Mrs. Stephenson W. Fletcher (Margaret Ralston) have been at State College, Pa., for several years. They have six sons and a daughter.

'03 PhD—A recent number of *Mechanical Engineering* had this to say of Dr. Sanford A. Moss: Sanford A. Moss, author of "Centrifugal Compressors for Diesel Engines," began his engineering career by serving an apprenticeship as a machinist in a shop in San Francisco, Calif. Upon the completion of this apprenticeship he entered the University of California, where he received a bachelor's degree in 1896. After his graduation he spent seven years as draftsman and engineer, and as an instructor both at the University of California and at Cornell. During this period he carried on post-graduate work, and in 1903 he received his doctor's degree from Cornell. Since that time he has been engaged in mechanical engineering research work with the General Electric Company. He has been active in varied lines, including those of steam turbines, gas turbines, superchargers for internal-combustion engines, and centrifugal compressors. Dr. Moss has been a member of the A. S. M. E. since 1903, and has been the author of many papers and discussions which appear in the *Transactions* of the Society.

'04 BSA; 'c6—Mr. and Mrs. Maurits C. C. van Loben Sels (Helen Ellsworth) own a 7500-acre ranch at Vorden, in the Sacramento River valley, California. They have seven children, the oldest of whom, a daughter, is a freshman in Stanford.

'06 AB—Mrs. William L. Allan (Belle Hanigan) lives at 427 Orange Grove Avenue, Alhambra, Calif. She teaches in a girls' school in Pasadena.

'06 AB—Mrs. Ira W. Bingham (Lulu Root) is the wife of the minister of a community church in Wilson, La., which numbers among its members representatives of all creeds from Catholics to Christian Scientists.

'06 AB—Charlotte H. Crawford teaches night and day in Brooklyn—French at night and Latin by day. She plans to spend the summer in Parris.

'06 CE; '06 AB—Mr. and Mrs. Herbert A. Gehring (Louise Hastings) have one son, who graduates from high school in Cleveland this June.

'06 AB—Jessie L. Gilchrist teaches in the High School in Atlantic City. Her address is 18 South Sovereign Avenue.

'06 AB—Laura M. Gildner is the head of Miss Gildner's Princeton School for Girls at Princeton, N. J.

'06 AM, '07 PhD—Antoinette Greene, who is the head of the English department of Olivet College, Olivet, Mich., has also been one-sixth president of the institution this year, in the absence of a single official.

'06, '10 BSA; '06 AB—Mr. and Mrs. Charles W. Mann (Caroline Judd) operate an orange ranch at San Dimas, Calif.

'06 PhD—Professor Ann H. Morgan, head of the department of zoology at Mount Holyoke, sails on June 11 for a summer of research in British Guiana.

'06 AB—Bessie F. Speed is teaching French in the Ithaca Conservatory of Music. She lives at 911 East State Street.

'06, '15 AB—Margaret L. Stecker is the author of a book, "The Cost of Living in the United States," published this month by the National Industrial Conference Board. This is a revision of a volume, bearing the same title, issued last year.

'06, '07 ME—Frederic A. Fenger is engaged in writing books, short yarns, and articles on seafaring subjects at Rum Gagger Farm, Cohasset, Mass. "Fritz" says, "A Rum Gagger is one who gags or spins improbable yarns in the hope of getting a shot o' rum for his trouble."

'08-'11 Grad—Dean John R. Turner of Washington Square College, New York

University, was the guest of honor at a luncheon given by his colleagues at the Hotel McAlpin on May 19 on the tenth anniversary of the beginning of his work at the college. A watch was presented to him by his friends and colleagues. Among the speakers was Professor Wesley D. Zinnecker, Ph.D. '12, of the German department, and Professor Rufus D. Smith '07, assistant dean of the college.

'11—Rudolph E. Lippert is vice-president and sales manager of Drying Systems, Inc., of 1800 Forster Avenue, Chicago, Ill.

'12 LLB—*Rough Notes*, a magazine of insurance agency salesmanship, for March had a page of appreciative comment on slogans by Wallace Piper, who mentioned favorably Henry Carey's admonition to "Carry Insurance with Carey."

'14 MD—Dr. Smiley Blanton, director of the Minneapolis Child Guidance Clinic, will be a lecturer at the Vassar Summer Session in the field of euthenics.

'16 BChem—Mr. and Mrs. Louis E. Knauss of 145 Church Street, Poughkeepsie, N. Y., have a daughter, Marian Elizabeth, born on April 17.

'18, '19 BS—Eugene B. Sullivan has formed a partnership with Joseph M. Klein for the general practice of law at 277 Broadway, New York. They are doing business under the name of Sullivan and Klein.

**STAY RIGHT
IN YOUR CAR**

*and Open or
Close Your
Garage Door
Electrically*

THE *Electric Door* operates from a plate in the driveway, and enables you to either open or close your garage doors without getting out of the car, or even taking your hand from the wheel.

When you are in a hurry, or the rain is pouring down, it is always ready to serve you. Saves time, clothes, and temper, and permits full enjoyment of a closed car.

Simple, safe, durable, reliable. Designed especially for the private residence garage. Operates 100 times for 2 cents. Easily installed. At Electric Dealers or direct from factory \$175 complete, f. o. b., Ithaca, N. Y.

The finishing touch to a modern home

ITHACA NEW YORK**

'20 MME—Constantine P. Yaglou, instructor in ventilation and illumination at Harvard, is the joint author of an important paper to be presented at the semi-annual meeting of the American Society of Heating and Ventilating Engineers in Lexington, Ky. This paper deals with work tests conducted in atmospheres in still and moving air and is a continuation of important research work that has been carried on for the past five years in the Society's research laboratory at Pitts-

burgh, where Yaglou was formerly a research engineer, to find out what are the atmospheric conditions under which human beings can most effectively and comfortably work.

'21—The engagement of Sherman D. Warner to Miss Grace M. Ibbotson, daughter of Mr. and Mrs. Henry C. Ibbotson of Brooklyn, was announced at a luncheon given on April 8. The bride to be is a graduate of Adelphi Academy and has also attended the New York School of Fine and Applied Arts. Warner graduated from the law school at New York University in 1923 and is now practicing in New York.

'21, '22 BS—Walter P. Knauss, athletic director at St. Lawrence University, Canton, N. Y., was married on March 25 at New York to Miss Dorothy M. Lawlor of Brooklyn. The bride is a graduate of Adelphi College in Brooklyn. They are now living in Canton.

'21 MS—Arthur H. Hendrickson is associate pomologist at the University Farm of the University of California at Davis, Calif.

'22 AB, '23 AM—Eleanor M. Dorr has returned to Ithaca from South Africa, where she had been teaching botany at Huguenot College, Wellington, C. P. She has been appointed assistant professor of botany and biology at Elmira College and will assume her duties there in the fall. She has announced her engagement to F. Werner Steck, now professor of veterinary physiology at Transvaal University College in South Africa, but soon to be professor of veterinary medicine at the University of Berne, Switzerland. Her address in Ithaca is 210 University Avenue.

'23 EE—Arthur V. Nims and wife (Marie Hodgkiss) announce the arrival of a daughter, Meredith Ann, on May 4. Nims is located at Hollis, Long Island. His address is 8821 187th Street.

'23 AB—Joseph Kopki says he is working for a public utility management corporation on Wall Street, New York, and is living at 200 Fortieth Street, Union City, N. J.

'24 BS; '26—Marian R. Salisbury of Hamburg, N. Y., who has been teaching at Trumansburg, N. Y., this year, has been named instructor in home economics at Cortland High School next year. Rebe L. Biggs '26 of Trumansburg will teach English and history in the same school.

'24, '25 AB—Richard C. Gill and Miss Ruth Lenfest of Presque Isle, Me., were married there on April 19. Gill is an instructor in English at Lafayette College this year. Next year he will be there also and will start a new course in creative writing.

'25 AB—H. Stuart Goldsmith left Miami, Fla., on May 10 for Cleveland, Ohio, after having had a wide variety of experiences in the South. He was engaged in selling real estate for a time and

later was night manager of a restaurant. While in that capacity he was held up one night and robbed of \$25. The thief was subsequently caught and is now serving a sentence of ten years at hard labor. Goldsmith's home address is Nyack, N. Y.

Do You Sing?

How well? How did you learn? When you learn from the singer sitting near you the chances are that you learn the wrong way. When it comes to Cornell songs or the songs sung at Cornell gatherings you need to know them correctly. Do you own a songbook with the music? A songbook costs only \$1.75 and we pay the postage.

Farm and Garden Books

At this season of the year this class of books are of interest to both farmer and city man who may have a garden. Our Agricultural booklist gives books of general interest as well as textbooks. We doubt whether you would want a textbook. Knives for killing poultry and scales for weighing eggs are illustrated. No charge for the booklist.

Cross Section Papers better than the average

Some of the largest engineering firms in the country are using "Co-op" cross section papers. If accuracy is desired and quality of paper needed you can hardly improve on the Co-op product. Write for a sample book and prices.
